chair yoga. Chair yoga is a gentle form of yoga that is practiced while sitting on a chair or using a chair for support. It is designed to make yoga accessible to individuals who may have mobility issues or find it challenging to perform traditional yoga poses on the floor. Chair yoga typically involves a series of gentle stretches, breathing exercises, and relaxation techniques that help improve flexibility, reduce stress, and promote overall well-being.

circuit & stretch. Circuit training Embody-style! This class is all about challenging yourself as you work through a series of individual stations focused on improving strength and fitness using a mixture of body weight and equipment. Finishing with an extended session of stretching, it's the perfect all-rounder.

dynamic pilates. With a strong focus on improving body shape, strength and definition, this dynamic, results-driven class combines classical pilates with elements of barre, endurance exercises and functional training to effectively boost overall fitness and wellbeing. Suitable for all levels.
